WORK EXPERIENCE

Inditex (Zara) Inc, SHANGHAI, CN

Android Developer | Dec 2022 -Now

- Key contributor in the development and localization of the Zara app tailored for the China market.
- Collaborated with a global team to implement region-specific features.
- Addressed and resolved key challenges for app releases in the Chinese digital landscape.
- Pioneered the MVP version of the Zara app for China, garnering significant user engagement.

iHerb Inc, SHANGHAI, CN

Android Developer | Oct 2020-May 2022

- Collaborated with PO and UI designers to enhance user experience.
- Transformed single project to modularized architecture, rectifying critical online app issues.
- Spearheaded payment and cart modules, resolved a longstanding Firebase Analytic issue.
- Enhanced CI/CD workflow based on past experiences and implemented automation and unit testing for business processes.

Booking Holdings Inc, SHANGHAI, CN

Android Developer | Nov 2018-Nov 2019

- Developed cutting-edge applications for the travel sector, working closely with marketing, UI designers, and global teams.
- Incorporated new features and utilized A/B testing tools for feature validation.
- Leveraged Google Analytics for event tracking and data collection to gauge business revenue.
- Played a pivotal role in localizing the Booking guest app and optimized the development cycle with Scrum workflows.

EF Education First, SHANGHAI, CN

Android Developer | July 2017- Nov 2018

- Collaborated with animation designers to produce visually captivating mobile games aimed at teaching English to children aged 3-6.
- Participated in comprehensive app development, including game functionality, animations, and server-side integrations.
- Implemented APNG decode and rendering based on open-source projects.
- Successfully reduced app runtime memory by 30%, addressing the majority of memory leak challenges.

Flyingwings Co., Ltd, SHANGHAI

Android System Developer | Oct 2015- Dec 2016

- Developed the 'WeiLa' robot system; participated in project requirement discussions and managed system releases.
- Orchestrated voice command processing for robots and clients, leading to enhanced human-robot interaction.
- Created a memory-efficient animation library, streamlining robot operations.

EDUCATION

Wuhan City Vocational College

Bachelor of Applied Mathematics | Oct 2011

Bachelor of Applied Mathematics | Oct 2011

PROJECT

SKILLS

- Application Development: Mastery over Android application design, development, and support.
- Technologies: Proficient in GraphQL, JavaScript-native Android interactions, and NDK technology.
- App Architecture: Well-versed in MVC, MVP, and MVVM architectures.
- Optimization: Proven track record in app optimization leading to significant efficiency gains.
- Team Collaboration: Demonstrated ability in cross-functional and global team collaborations.
- Development Tools: Adept at Git, Scrum workflows, CI/CD processes, and cloud development environments.
